

# Practice Questions Edition'22

---

Prepare Yourself for **AZ-900** Microsoft Azure  
Fundamentals Training

Enter

# Hello learners!

With Training and certification for AZ-900 you'll be proficient in cloud concepts; core Azure services; core solutions and management tools on Azure; general security and network security features; identity, governance, privacy, and compliance features; and Azure cost management and Service Level Agreements.

This training and exam is intended for you if you are just beginning to work with cloud-based solutions and services or are new to Azure.

With this training and exam you'll be able to prove knowledge of cloud concepts, Azure services, Azure workloads, security and privacy in Azure, as well as Azure pricing and support. Azure Fundamentals training can be used to prepare for other Azure role-based or specialty certifications.

Here are the practice questions for you to test yourself!

# Here goes the Quiz

---
