

ABOUT MONTYCLOUD

MontyCloud Inc. was founded with the fundamental principle of enabling enterprise IT teams to become cloud powerhouses. MontyCloud DAY2™ is an intelligent multi-cloud management platform that enables No-Code CloudOps.

With DAY2™ customers can consistently provision, monitor, manage and govern cloud accounts and applications. In just a few clicks, customers can deliver secure, reliable and highly automated cloud operations and save on costs. Many large enterprises, education and research institutions use DAY2™ to efficiently manage and operate their cloud environments.

OUR CUSTOMERS & PARTNERS

KEY CUSTOMERS

KEY PARTNERS

MontyCloud's DAY2™ has helped us achieve automated provisioning and enabled intelligent operations of AWS resources and applications that power our research team. It is always a challenge to work on cutting edge research areas with limited cloud IT specialists and budget. Thanks to MontyCloud, we have reclaimed over 30% of our productive time and we are able to focus more on our research and innovations.
